RESPONSE TO RESTRICTION REQUIREMENT

This paper is being filed in response to the Restriction Requirement dated September 19, 2002.

REMARKS

Claims 1-40 were pending. In response to the Examiner's restriction requirement, Applicant provisionally elects to pursue claims 1-16 and 33-36, Group I, with traverse.

Restriction Requirement

The Examiner requires Applicant to elect one of the following designated groups for examination:

Invention I, encompassing claims 1-16, and 33-36, "drawn to a method for preparing an internucleotide phosphorothioate linkage enriched in the Sp enantiomer, classified in class 536, subclass 25.3"; and

Invention II, encompassing claims 17-32, and 37-40, "drawn to a method for preparing an internucleotide phosphorothioate linkage enriched in Rp enantiomer, classified in class 536, subclass 25.3".

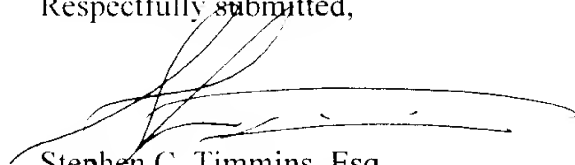

(Office Action at page 2).

In an attempt to advance the prosecution of this application to allowance, Applicant provisionally elects Group I, encompassing claims 1-16, and 33-36 with traverse. Applicants reserve the right to prosecute claims 17-32, and 37-40 in a future divisional application.

Notwithstanding the foregoing, Applicants respectfully submit that Groups I and II as set forth by the Examiner are amenable to being combined and that such grouping would not impose a serious burden on the Examiner as Groups I and II are drawn to related subject matter. For example, Groups I & II are classified as being in the same class and subclass. Applicants request that the Examiner reconsider this restriction requirement after an initial search has been conducted.

Applicant believes that the foregoing is a full and complete response to the Office Action of record.

Respectfully submitted,
